Dear Adam,

I wanted to thank you for being the first on the scene and taking good care of me on the night of October 9th. You helped keep me calm during excruciating pain and let me hold your hand which →

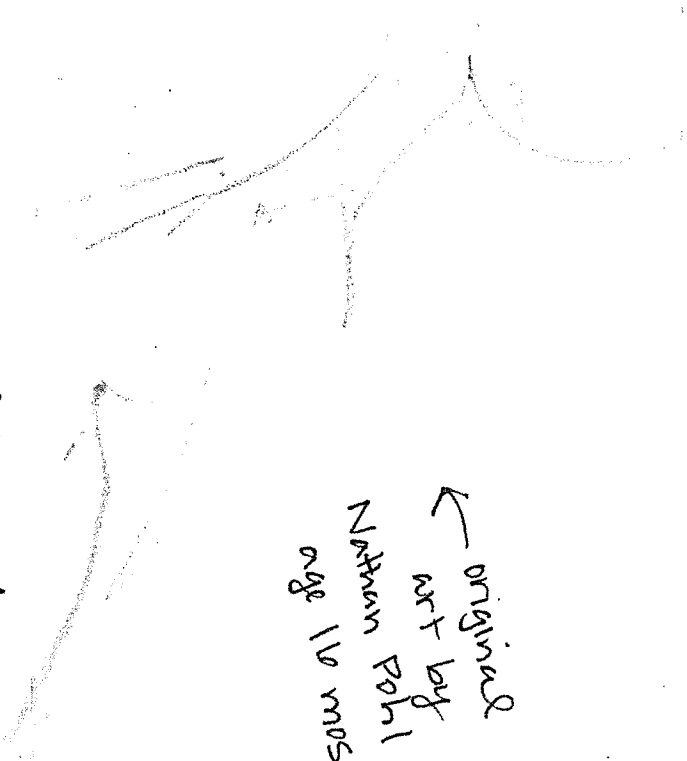

was more comforting than you know. It's nice to know we have such great firefighters down the street. Hopefully I won't need a rescue in my bedroom again, but we hope to see you guys around the community.

With much gratitude & appreciation,

Jily

P.S. It turned out to be internal bleeding
