ROSS VALLEY FIRE DEPARTMENT STAFF REPORT

For the meeting of September 11, 2019

To:

Board of Directors Jason

From:

Weber, Fire Chief

Subject:

Standards of Coverage Presentation by CityGate Associates

Recommendation:

The Board receive a presentation from Stewart Gary, Principal, Citygate Associations LLC. on the Ross Valley Fire Department's (RVFD) "Standards of Coverage Assessment." Provide feedback and direction to Staff.

Discussion:

In the past year, the Ross Valley Fire Department (RVFD) has had to assess fire services related to multiple long-term decisions surrounding facilities and services levels. In 2005 prior to the merger of Ross Fire Department with the Ross Valley Fire Department, a Standards of Coverage (SOC) Assessment was completed by RVFD which did not include the Town of Ross. The RVFD retained Citygate Associates to conduct a comprehensive SOC assessment to provide a foundation for future fire service planning. The goal of the assessment is to identify both current services and desired service levels and then to assess the Department's ability to provide them. Another goal of this assessment is an analysis of the impact on the current level of services if the fire engine in the Town of Ross was relocated, and alternatively, the fire engine and ambulance were relocated from their present location in the Town of Ross..

Citygate's Standards of Coverage and community risk assessment studies are performed in accordance with the methodology outlined in *Community Risk Assessment: Standards of Cover* (6th ed.) as published by the Commission of Fire Accreditation International (CFAI). This approach uses local risk and demographics to determine the level of protection best fitting a community's needs. In the United States, there is no federal or state regulation requiring a specific minimum level of fire services. Each community is expected to understand the local fire and non-fire risks and its ability to pay, and then choose its level of fire services. If fire services are provided, federal and state regulations specify how to provide fire services safely for the public and for the personnel providing the services.

The project included the following eight elements of the Standards of Coverage process:

Standards of Coverage Process Elements

	SOC Element	Description
1	Existing Deployment Policies	A review of current agency deployment policies.
2	Community Outcome Expectations	A review of the community's expectations relative to the agency's response to emergencies.
3	Community Risk Assessment	A review of the assets at risk within the community.
4	Critical Task Study	A review of the essential tasks that must be performed and the personnel required to deliver a stated outcome for an Effective Response Force (ERF).
5	Distribution Study	A review of the spacing of initial response (first-due) resources, typically engines, to control routine emergencies.
6	Concentration Study	A review of the spacing of fire stations so that larger or more complex emergencies receive sufficient resources in a timely manner (Effective Response Force).
7	Reliability and Historical Response Effectiveness Studies	Using recent prior response statistics, determining the percentage of conformance to established response performance goals the existing deployment system delivers.
8	Overall Evaluation	Proposing Standards of Coverage statements by risk type as appropriate.

Fiscal Impact:

There is no fiscal impact receiving the Standards of Coverage presentation other than staff time spent already assisting in the development of this report and presentation.

If the Board agrees, this item will be added to the November agenda to give the Board time to review the report in more detail; at that meeting, the Board may consider adopting standards and/or recommendations provided within the report.

Ross Valley Fire Board Meeting Minutes August 14, 2019

Board Present: Brekhus, Brown, Shortall, Finn, Lacques, Kuhl, Reed

Board Absent: Greene

Staff Present: Weber, Brown, Yeager, Grasser, Toy

Open time: none

Board requests: none

Chief Report: Defensible space and inspection program, a lot of success to date, won't be able to hit the 3,800 inspections, the positive is that residents are happy to be able to speak to someone direct regarding their individual property. There is only 55-60% passing rate. There have been numerous complaints coming in from residents. It has been a successful program so far. It is also the one-year anniversary of the agreement between RVFD and MCFD. Staff will bring back a report within in the next month or so, with an update of the agreement and where the deliverables are.

Marin Wildfire Prevention Authority Presentation – Chief Weber presented a report on the initiative that will be going before the voters in March 2020.

Discussion and questions and answers regarding the proposed initiative.

Consent agenda: M/S Reed/Brown all ayes. Kuhl, Reed, Lacques, Finn, Shortall, Brown, Brekhus

Adopt and Approval: Deputy Director Yeager presented the staff report and explained that there were no changes from the prior discussions.

M/S Finn/Reed to Adopt Resolution 19-06 – as presented.

Adopt Resolution 19-07 - as presented

Adopt Resolution 19-08 - as presented.

Approval of the July 1, 2019 – June 30, 2022 – MOU for the RVFD and the IAFF Local 1775 Firefighters

Approval of the July 1, 2019 - June 30, 2022 - MOU for the RVFD and the RVFCOA
